

## Who We Are

**Workforce Compliance Safety Ltd.** has experience in all aspects of safety and environmental management and assessment. We offer expertise in the following sectors:

<b>Oil &amp; Gas</b>	<b>Transportation</b>
<b>Construction</b>	<b>Manufacturing</b>
<b>Landscaping</b>	<b>Forestry</b>

Our extensive experience and knowledge of Energy Resources Conservation Board, Alberta Environment, and Occupational Health and Safety Legislation enable us to give you professional service and advice.

## ISNetworld Clients

With the Occupational Health and Safety legislation changing on an on-going basis it is difficult to find current, easily readable, compliant information to support your current Safety Manual.

### Our Safety Professionals can:

- Create professionally written, cost effective, and company specific ISNetworld RAVS documents (guaranteed to score at 100%).
- Incorporate all RAVS into your Safety Manual or Start you with a new Safety Manual.
- Assist in entering data into questionnaires.
- Maintain your ISNetworld, ComplyWorks, and/or CanQual accounts.

ALL ISN Owner Clients can view your RAVS score. A score of 100% within ISNetworld could result in increased business opportunities for your company and is vital as you maintain safety requirements of your current clients.

The documents that Workforce Compliance Safety Ltd. provides are a great addition to your current safety manual or a solid base to build your safety program. Whether you have started the RAVS process already and just need a few documents completed, or are about to start the process and are in need of all the applicable documents, we can help.

We have a proven record of ensuring compliance with the requirements of any Owner Clients you work for.

### COR/SECOR Manual Development and Updating

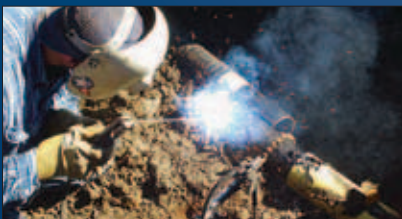

We will develop a Safety Manual that meets the requirements of COR/SECOR, ISNetworld, ComplyWorks, and CanQual. We can also update the manual you currently have in place to meet the policy and RAVS requirements of ISNetworld. With our ongoing support, your company can obtain/maintain your COR/SECOR and see financial savings from WCB and Safety Management System database grades you can be proud of. Workforce Compliance Safety has our SECOR and understands the requirements of all Certifying Partners.

We can also work with your company to create Job Hazard Analysis', Procedures, Practices, and Forms.

### Environmental Policies and Responsibilities

We will create an Environmental Policy and assign responsibilities based on what your Company does that may impact the environment. We can create Spill Procedures and Guidelines to meet the requirements of Transportation of Dangerous Goods (TDG) and Alberta Environment.

**On-Going Assistance to All of Our Clients –** Our goal is to provide our clients with the best customer service. If you need advice just give our safety and environmental professionals a call. We are always willing to help.

## Testimonials

"I have had an opportunity to work with Julie and Alison and find them to be diligent, experienced safety professionals."

**D. Raymond Consulting Ltd.**

"Workforce Compliance Safety helped us to fine tune safety requirements from some of our customers. It severely reduced our stress in these matters."

**South Peace Distributors Ltd.**

"Our company began very small 3 years ago and has grown, taking on numerous clients who have significant Safety & Compliance expectations. Through our relationship with Workforce Compliance Safety Ltd, the transition from a small to mid-sized service provider has been exciting and enjoyable. Workforce Compliance Safety Ltd. has provided our organization with dependable, timely and affordable safety consulting services."

**Harvest Oilfield Service Inc.**
